Motorcycles: Group Rear Wheel Drive Nr. 1/63 (200) e.

München, May 9<sup>th</sup>, 1963  
KV2 er/ba/wi/fä

Introduction of the 27:7 ratio for R 60 sidecar-machines  
aswell as new ventilation of the rear wheel drive on all  
2-cylinder motorcycles

New sidecar-ratio R 60

Upon request of many customers it was decided to re-intro-  
duce the 27:7 ratio for the sidecar machines R 60, commencing  
with frame-number 623 980. The hitherto used 26:6 ratio for  
the rear wheel drive is still available on special request.

Part number:

|  |           |
|--|-----------|
| Ring gear with pinion (27:7)                 | 30 10 185 |
| Speedometer for R 60 SW with ratio 27:7      |           |
| Speedometer (kilometers)<br>ratio number 0,9 | 80 80 094 |
| Speedometer (miles)<br>ratio number 1,44     | 80 80 095 |
| Speedometer (miles with trip recorder)       | 80 80 096 |

New ventilation of the rear wheel drive housing

Commencing with frame number 657 099 on model R 69 S and  
starting with the next series on R 50 S, R 50 and R 60.

Thanks to this new ventilation of the rear wheel drive of  
our twin cylinder models the oil tightness is assured also  
in tropical climates.

This new ventilation cannot be applied to older housings.

Part-number of the new housing:

Bevel drive case 30 04 306.

With kind regards,
