Supplement 2

Re: Road behaviour of twin cylinder models

Dear Sirs,

After thorough road testing a new Metzeler tyre with 4-ply infrastructure has been admitted which replaces the preceding 2-ply type. The tyre designations 3.50 x 18 Rille 10 and 3.50 x 18 S Rille 10 remain unchanged.

Effective March 1969 the new tyre is introduced in the standard serial production and marked, for the introduction period, with the tyre manufacture letters EL, TL, XL, AL, LL, WL, YL and DL.

The new tyre offers the advantage that vibrations likely to develop for example with shimmying steering will be damped.

Very truly yours,

BAYERISCHE MOTOREN WERKE  
Aktiengesellschaft
