

ACTIVE LINE

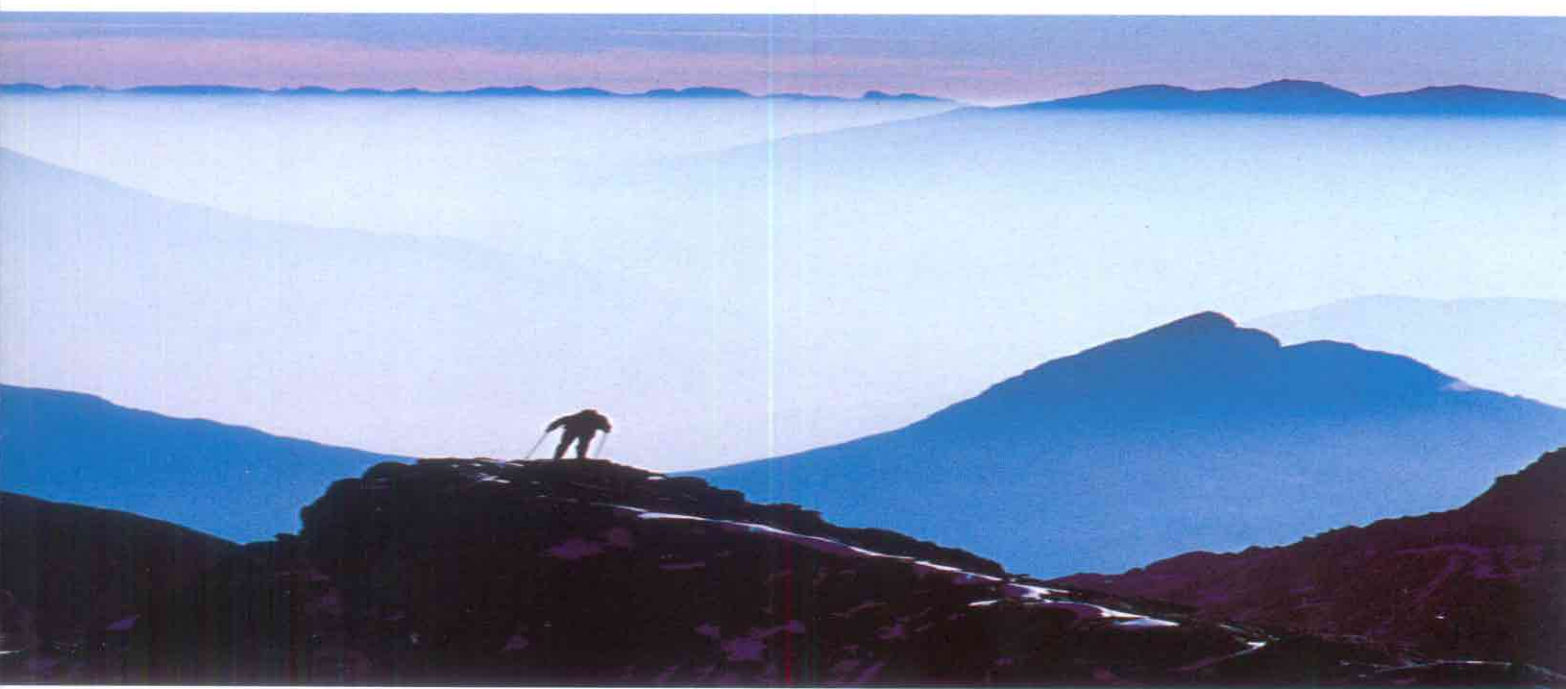

Active Line

FUN – FREEDOM – ACTION – ADVENTURE: ACTIVE LINE.

Riding a motorcycle through the desert. Surfing off Tasmania. Taking your snowboard to Aspen. Water skiing in Miami. Trekking in the direction of K2. On the Hintermooser Alm in first gear. Three laps of the city park. In a trapeze off St. Tropez. Above you the paraglider, below you Val d'Isère. This is the world of Active Line.

The idea behind Active Line is functional wear for people who set their own limits, but who also know how to have fun. Who look for relaxation one minute and adventure the next. For motorcyclists who don't just need clothing for riding but for other outdoor challenges too!

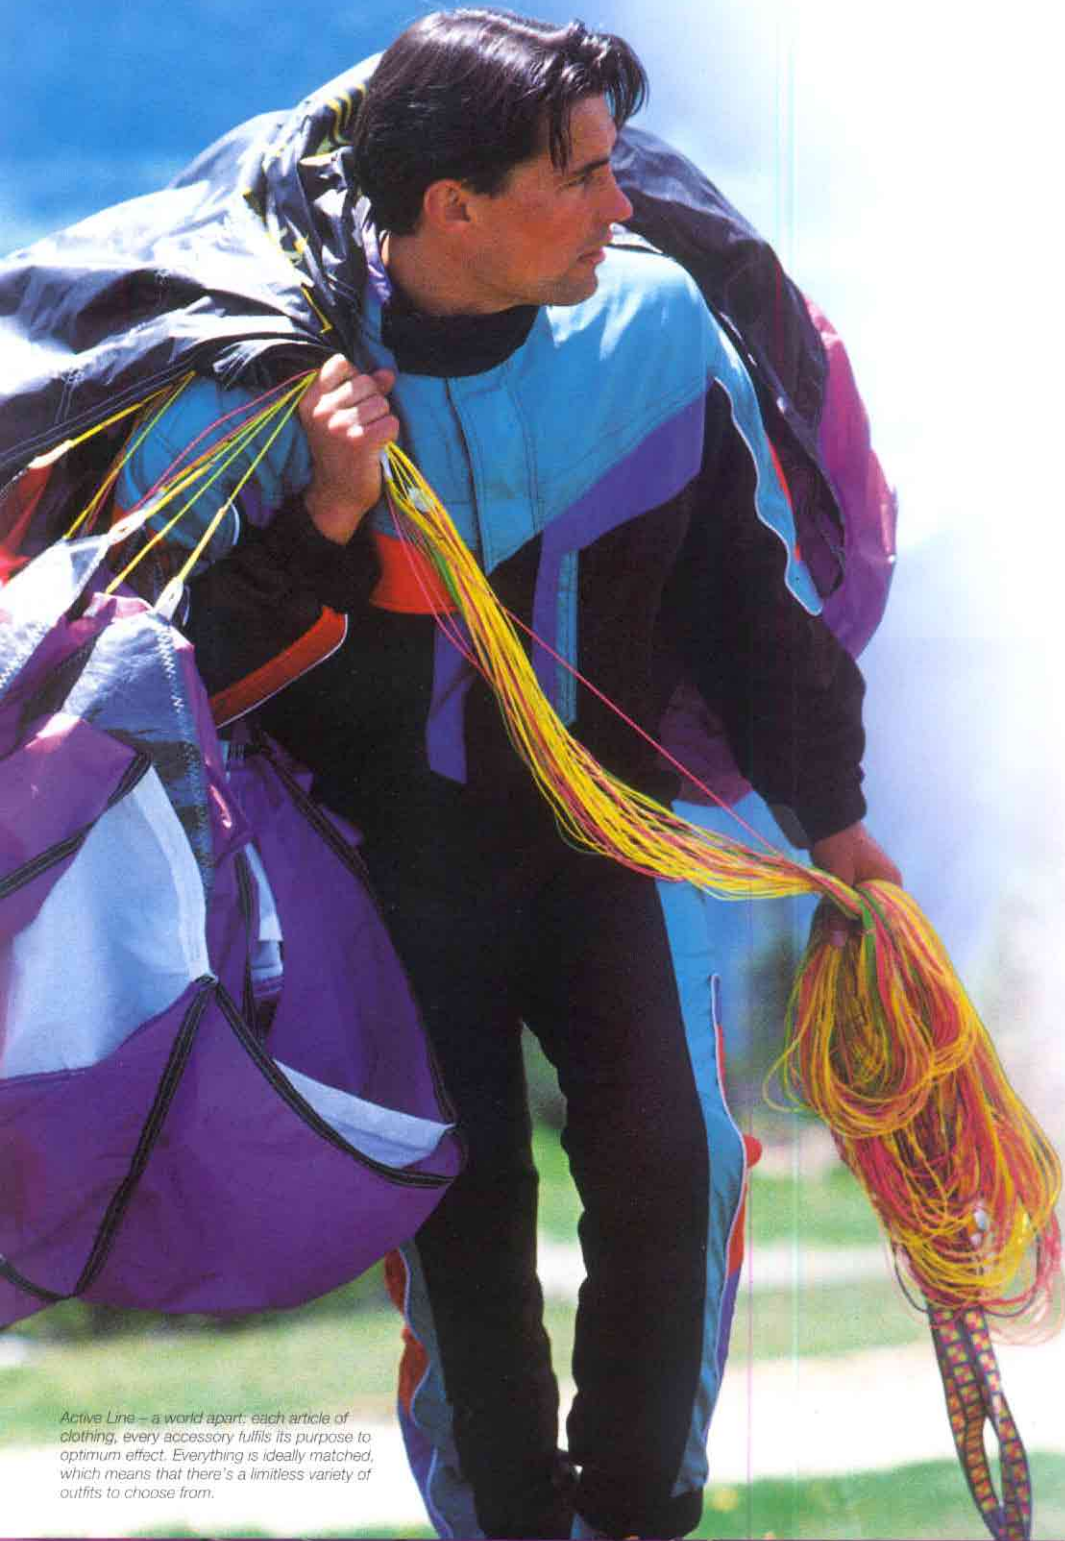

In other words, Active Line is multifunctional clothing and equipment, suitable for whatever you have in mind.

The unbeatable advantage is that this idea is based on all of BMW's experience, acquired precisely where standards are exceptionally high – in rider's equipment for the serious motorcyclist.

Active Line accepts no compromise.
Judge for yourself: Active Line is all about unlimited Fun, Freedom, Action and Adventure.

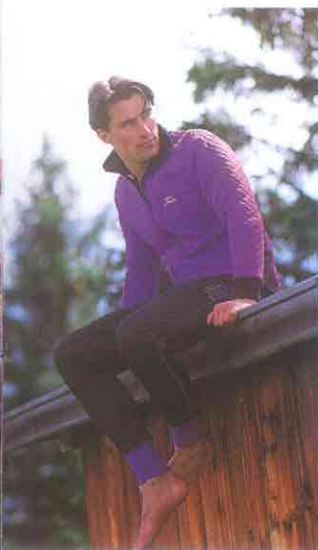

ACTIVE LINE FOR ACTION THE SKY'S THE LIMIT!

Active Line – a world apart: each article of clothing, every accessory fulfills its purpose to optimum effect. Everything is ideally matched, which means that there's a limitless variety of outfits to choose from.

Active Line Adventure sleeveless jacket. Matches the Adventure suit. Keeps the upper part of the body warm without restricting your movements. Lined with Thinsulate™ for effective thermal insulation, and with a robust outer layer of Cordura.

Active Line thermal undersuit. With adventures in cold climates in mind. This two-piece undersuit uses a polyester/cotton mixture for excellent breathing properties and has polyester padding. It is a reliable heat retainer even in sub-zero temperatures. The suit forms a resilient, snug fit around the body. The extra-long jacket insulates the kidney region.

The Adventure suit is the centrepiece of Active Line. A genuine all-rounder that's perfect for every occasion. To find out more, just turn the page.

Active Line T-shirt. The right choice for a wide variety of activities, not least because it is extremely durable and maintains its shape.

Active Line sunglasses. Take a closer look, because these glasses really do provide effective protection. The frame is made from very durable carbon fibre, the lenses are of shatterproof and scratch-resistant polycarbonate.

Active Line scarf. An attractive, eye-catching accessory effective against the cold wind.

Soaring high with your hang glider, what do you need? Protection from wind and weather, because the higher you are the colder the wind blows. Freedom of movement, particularly when starting and landing. The safety that helps to prevent many an injury. Not to mention various other equally practical features.

Here's your answer – Active Line meets hang gliding requirements perfectly. And it's equally suitable for every other kind of challenge.

The Active Line Adventure suit points the way by combining the best ideas in weather protection, safety and comfort in a truly unique garment.

But that's not enough – the Active Line idea goes a stage further. With a complete range of leisure wear in which fun and action complement each other perfectly. No limits apply here, whether beneath a hang glider or anywhere else between the ground and the sky.

The Active Line Adventure suit combines all the features that discerning motorcyclists expect from a top-quality two-piece suit: safety, weather protection and comfort. What's right for the motorcycle is in this case perfect for other outdoor challenges too!

Adaptable. Thanks to the multifunctional fastening strap you can easily secure additional items, such as the helmet, to the Active Line rucksack.

Active Line rucksack. The inner compartment is divided by zip fasteners into a cover and a base pocket; you determine its actual size by means of the compression cords, which ensure that items placed inside are secure and do not move around. The comfortable back section, padded shoulder straps and hip belt ensure a snug, fit. If it rains you simply fit the integrated rain cover over the top – and everything stays dry.

Functional design. Legs, arms and collar form a snug, elastic fit to keep out the wind and rain.

A forecast of pleasant temperatures. The GORE-TEX® membrane in the inner suit is a totally reliable means of keeping water and wind at bay. Yet moisture on the skin can easily evaporate, with the result that heat can neither build up from within nor a cold, clammy feeling develop.

Everything to hand. Of course there's plenty of space in the Active Line Motion suit for all those small items you need to carry with you. Papers and documents can be kept in the waterproof pouch pocket with its GORE-TEX® membrane.

Movement is the name of game – the Active Line Adventure suit has so many talents up its sleeve because it combines two suits in one. And as a genuine all-rounder it satisfies widely differing demands.

The outer suit is in tough, tear-resistant Cordura with detachable SUPROTECT protectors. The inner suit is the secret of wearer com-

fort. Thanks to the GORE-TEX® membrane it is completely wind- and waterproof, yet has such excellent breathing properties that a build-up of perspiration is virtually eliminated.

This suit will satisfy your need for safety and weather protection ideally, whatever the environment – whether you're skiing or riding your motorcycle.

TO BE TAKEN AT ITS WORD: THE ACTIVE LINE ADVENTURE SUIT.

Additional safety features. The Active Line Adventure suit has the new, highly effective SUPROTECT protectors now used in all BMW motorcycling suits. Due to its visco-elasticity, SUPROTECT absorbs sudden impact energy and helps to protect the wearer against injuries.

**FOR THE DEMANDING CUSTOMER:
WATERTIGHT LEISURE IDEAS FROM ACTIVE LINE.**

BMW Atlanta trousers. These also match every other jacket in the Active Line range. In terms of weather protection and wearer comfort too. SUPROTECT protectors can be inserted into the velcro fastener pockets at the knees, and a GORE-TEX® membrane makes the trousers windproof and waterproof.

Active Line Freedom jacket. Warmly recommended in rough weather. The jacket is long in cut, with a heat-retaining lining. Thanks to its GORE-TEX® membrane, it's waterproof and has excellent breathing properties. The tear-resistant Cordura outer layer and the detachable SUPROTECT protectors mean highly effective protection on the toughest adventures.

Active Line Sky jacket: If you prefer sports-style you'll feel at home in this jacket because of the comfort provided beneath its attractive surface. Multifunctional features: SUPROTECT protectors are simply inserted at the shoulders and elbows as an optional extra for motorcyclists.

Active Line luggage roll. A kitbag for the modern seadog. Up to 60 litres of luggage can be quickly stored away for convenient transportation and kept watertight. The material is tear-resistant nylon with high-frequency heat-sealed seams.

Looking for more fun on the water? This all-rounder will get you in the right frame of mind. One look at the Active Line Freedom jacket tells you that it can be perfectly combined with sailing trousers and many other types of suit bottoms.

A closer look is well worthwhile, since it reveals the various practical details: built-in GORE-TEX® membrane for protection against the

elements, push-in protectors for extra safety. Discover the quality that will stand up to any comparison, thanks to this garment's first-class materials and workmanship.

Like to see more? No problem: each of the great Active Line leisure garments is suitable for whatever activity you have in mind.

You can tell that from the excellent way they've been designed.

Active Line Jogger sleeveless jacket. Matches the Active Line Jogger suit but is also perfect to wear over shirts, pullovers etc. so as to keep the heat in. Jogging trousers, jacket and sleeveless jacket are available as separate articles.

Active Line Jogger suit: wear it in sub-zero temperatures as an undersuit – it is equally suitable for your morning warm-ups. The material – polar fleece – is ideal for either activity, because it retains a pleasant level of warmth and helps to dry off perspiration more quickly. The upper section's Windstopper® membrane is made by the GORE company and prevents draughts.

Active Line Tent. Can be set up in next to no time: the extremely sturdy structure is assembled from aluminium poles, the inner tent fitted into place and the two sections secured to the ground with a few pegs. The tent is then complete, providing space for up to three persons. Luggage being kept in the two entry areas.

Active Line sleeping bag. You'll be guaranteed sweet dreams in this sleeping bag, whatever adventure you're undertaking. The lining material is an innovative hollow-structure polyester fibre, ensuring excellent heat insulation and pleasant sleeping conditions. The outer layer is tear-resistant and hard-wearing. Mention must be made of practical details such as the two inside pockets for valuables. Two sleeping bags can be combined to form a larger one.

Active Line Isomat. So convenient, because the mat is simply rolled out and then fills with air more or less by itself. Firmness can be individually adjusted by topping up with air. The resulting airbed provides excellent heat insulation, is extremely light and can be folded up to occupy a very small space.

Those who make a conscious effort to get away from their routine existence will soon discover the attractive side of life. What could be more fun than parking your motorcycle, putting your bicycle to one side, lowering the sails, unfastening the crampons and setting up camp. Regardless of where you are, close to the North Cape or well into the Sahara Desert.

Active Line makes it easy to take a break, switch off and enjoy the time between sunrise and sunset. Simply because every piece of Active Line equipment satisfies your needs so completely. Practical, tough, easy to use and designed in detail so that nothing stands in the way of your relaxation. And you're fighting fit for the following morning. For unlimited Fun, Freedom, Action and Adventure.

ACTIVE LINE – FOR ENJOYABLE LEISURE.

Active Line sports bag. Your equipment is in safe keeping here when you're on the move. Sports shoes or motorcycle boots are put in a special compartment lined with a waterproof film, the helmet is stored in a second compartment. Your papers are conveniently located outside in the document pocket.

Active Line functional underwear. Made of Dunova®, which disperses moisture and fits the body snugly thanks to the high proportion of Lycra it contains. The shorts, available separately, can also be worn as stylish cycling shorts. The padded insert in the seat stops the cold from getting through to the skin, which is particularly good news for motorcyclists.

BMW TAKES MANY A GOOD IDEA FURTHER.

BMW has always been known for offering "go-getting" people a great deal. Visit your local BMW Dealer. Discover that our rider equipment range is every bit as versatile as the Active Line range. It is highly rated in motorcycling circles, but not just there. For example, the BMW System 3 helmet has long been preferred head-gear among top bob sport or power-boat racing teams.

Everything you need as a motorcyclist, from clothing and accessories to Finance, Insurance, Assistance and Assurance can be found at your local BMW Motorcycle Dealership.
