

BMW MOTORCYCLE AND RIDER'S EQUIPMENT INNOVATIONS

WHAT'S NEW IN THE WORLD OF SHEER RIDING PLEASURE?

1 The two-piece BMW rainsuit is particularly easy and convenient to wear. The bib-trousers and rain jacket overlap to provide a watertight combination. The bib-trouser suspenders are infinitely adjustable, the trouser legs have long zippers and an elastic band at the bottom. The double sleeves reliably keep out water even in the worst conditions, the high-rise collar keeps you warm and dry around the neck.

The demands made by motorcycle enthusiasts these days are increasing all the time. Versatility and individual style have never been more important. More than any other manufacturer, BMW has accepted the commitment to fulfill these demands in our future developments. Meaning that what counts most at the end of the day is the sheer riding pleasure you get out of your motorcycle. So that we make it our job to offer

the enthusiast not only first-class machines but also optimum equipment for every purpose. And we give the rider every opportunity to customize his motorcycle and personal gear.

Offering a range of more than 350 different items for the rider

2 Stylish and practical: BMW's new GORE-TEX® jacket is extra-long for good looks and maximum convenience. It provides a perfect combination with other garments and is virtually ideal for motorcycling. Laminated to the surface, the GORE-TEX® top layer keeps out wind and water in all kinds of weather. And at the same time it provides an active breathing effect. Complete with protector padding around the shoulders and elbows and with an adjustable waistband for an optimum fit at all times.

4
Attractive and practical: With its tight body fit and efficient streamlining provided by the belt, the city suit also takes the place of the standard abdominal belt otherwise required.

5

They are tested and proven according to the toughest standards and specifications, and then manufactured with the most advanced technology. So that the final result is a product range combining top quality with state-of-the-art sophistication.

5
It's great if freedom on two wheels can be enjoyed to the full. BMW has everything you need.

and his machine, BMW ensures greater versatility than any other manufacturer. All these products are developed and built by specialists devoted to the motorcycle themselves.

Now, in 1991, BMW is once again supplementing the existing range of motorcycle equipment by a series of new, up-to-date products.

6
 Would you like to give your BMW R 80 G/S a new, really professional look? Or get it ready for some really tough riding? No problem with the Paris-Dakar conversion kit. Complete with 7.7 gal. fuel tank, fairing, engine protector cover extended further back to the rear, engine fairing, hand protectors, oil cooler, flared mudguards in new design. All parts may be fitted individually.

7
 BMW all the way: The new alarm system for BMW motorcycles features special electronic circuits. Which means that unlike most other systems, it works independently of the position in which you park your motorcycle. The alarm is set off as soon as your parked machine is moved to another position or subjected to severe vibrations.

8
 If you wish to improve on the dynamic qualities of your K100 or K75, you now have the choice of BMW sports footrests. Tailor-made for all three and four-cylinder K-models with two-valve power units.

Beautiful, practical designs are evident in the stylish city overalls through the practical Gore-Tex rider's jacket all the way to the new motorcycle accessories. But remember that this brochure only provides a brief rundown of the entire range of BMW motorcycle equipment. So if you'd like to know more about our complete range of equipment for man and machine, BMW motorcycle training and tours, just contact your BMW motorcycle dealer for details.

Certain items of equipment shown in this brochure may not be available in some markets due to technical or legislative constraints.
