

BMW RIDER'S EQUIPMENT

**BMW 1992 RIDER'S EQUIPMENT:
LET THE GOOD TIMES ROLL.**

Enjoying the great outdoors on a great motorcycle, being where the action is, having a great time with a good friend or just enjoying the countryside all by yourself. Discovering a new world and gaining new experiences on your motorcycle will give you the best of life. Breaking away from that everyday routine and leaving behind the usual boredom.

ACTIVE LINE MULTI-FUNCTION SUIT. VERSATILITY ALL THE WAY.

The Active Line multi-function suit is just right for the individualist with a pledge to versatility. Because it is actually two suits in one – a practical inner suit beneath the attractive outer suit – with numerous features you can combine individually according to your own personal style in any way you like.

For hot temperatures just take the outer suit with protectors for extra safety in the jacket and pants.

Whenever it is really wet, the GORE-TEX® inner suit will protect you 100 percent in the rain.

Whenever you run into low temperatures and wet conditions together, for instance in winter sports, the combination of outer and inner suit is just ideal.

Please refer to the Active Line Catalog for additional information or contact your local BMW Dealer.

1
The pant legs are adjustable to your personal requirements. A folding, water-tight insert behind the long zipper guarantees additional flexibility.

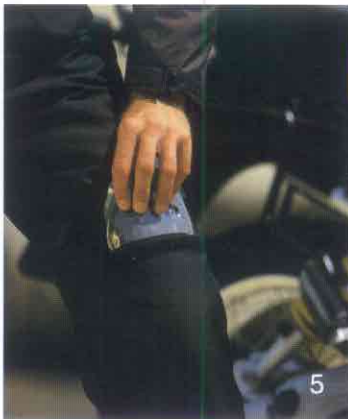

2
The Active Line wear, accessories and equipment for the active, demanding individual. In the kind of first-class quality you would expect from BMW.

3
Your sunglasses are always handy in the small outer bag along with your ski pass, keys, money or documents. They all fit perfectly into the water-tight removable bag in your chest pocket.

4
The zipper joins the jacket and pants to form one single-piece suit. The inner suit is fastened to the outer suit by press studs.

5
SECUFLEX protectors ensure additional safety on the road. This special BMW material is truly unique, soft and hardly noticeable under normal conditions. In the event of sudden impacts, it instantly hardens and provides a perfect damping effect. The protector pads are sealed water-tight and may be removed if desired.

6
The protective outer suit made of tear-proof Cordura fits conveniently over the water-tight inner suit giving you the right combination at all times. When traveling you only need the outer suit, while the inner suit is just perfect for sailing or rafting. The combination of both suits gives you exactly what you need for skiing.

7
For all four seasons: Active Line is always right. Regardless of whether you're out skiing or on your motorcycle.

FROM SUNSHINE TO CLOUDBURST, BMW GORE-TEX® SUITS.

Let's face it, when can you really rely on the weather report? So what you need is the very best motorcycle wear for all circumstances. BMW has two all-around suits of this caliber to offer – the BMW GORE-TEX® suits.

Thanks to the integrated GORE-TEX® membrane, these suits can cope with virtually any kind of weather – sunshine and pouring rain, gusty winds and sub-zero temperatures. With its ideal properties, GORE-TEX® reliably keeps out wind and water, but at the same time allows your skin moisture to evaporate freely so that regardless of weather conditions, you will always feel at home in your „second skin“. You will feel safe, too, because BMW's GORE-TEX® suits benefit from the latest findings in motorcycle research. All particularly exposed parts of the body – shoulders, elbows and knees – are protected by impact-absorbing SECUFLEX padding. Specially developed by BMW, this unique material ensures maximum flexibility for an ideal combination of comfort and safety. The final touch is then added by the attractive outer skin in mixed cotton fabric, offering an active breathing effect and the extra safety of tear- and abrasion-proof Cordura.

It almost goes without saying that each of the two suits comes with a wide range of practical and useful details. Just try them out to see which suit fits you best.

1 Absolutely water-tight at all times, the elastic water lock on BMW's blue GORE-TEX® suit. Now you can even keep out that irritating water which usually trickles along your arm. The water-tight and wind-proof collar is removable.

2 Braving wind and weather, a special insert behind the zipper keeps you warm and dry even in the worst conditions. On BMW's new GORE-TEX® suit there is ample room for your money and documents in the water-tight inner pocket accessible from outside.

3

4
BMW's red GORE-TEX® suit also keeps you extra dry. The bib pants extending up to your chest beneath the jacket come with elastic suspenders to ensure a tight fit.

4

3
Fresh colors even in gray weather, BMW's two-piece blue GORE-TEX® suit. The removable protectors around your shoulders, elbows and knees are hardly visible, but offer maximum safety. You can also add a special back support whenever required.

5
The water-tight outer pocket on BMW's red GORE-TEX® suit is a particularly practical feature for keeping your documents handy at all times.

5

6

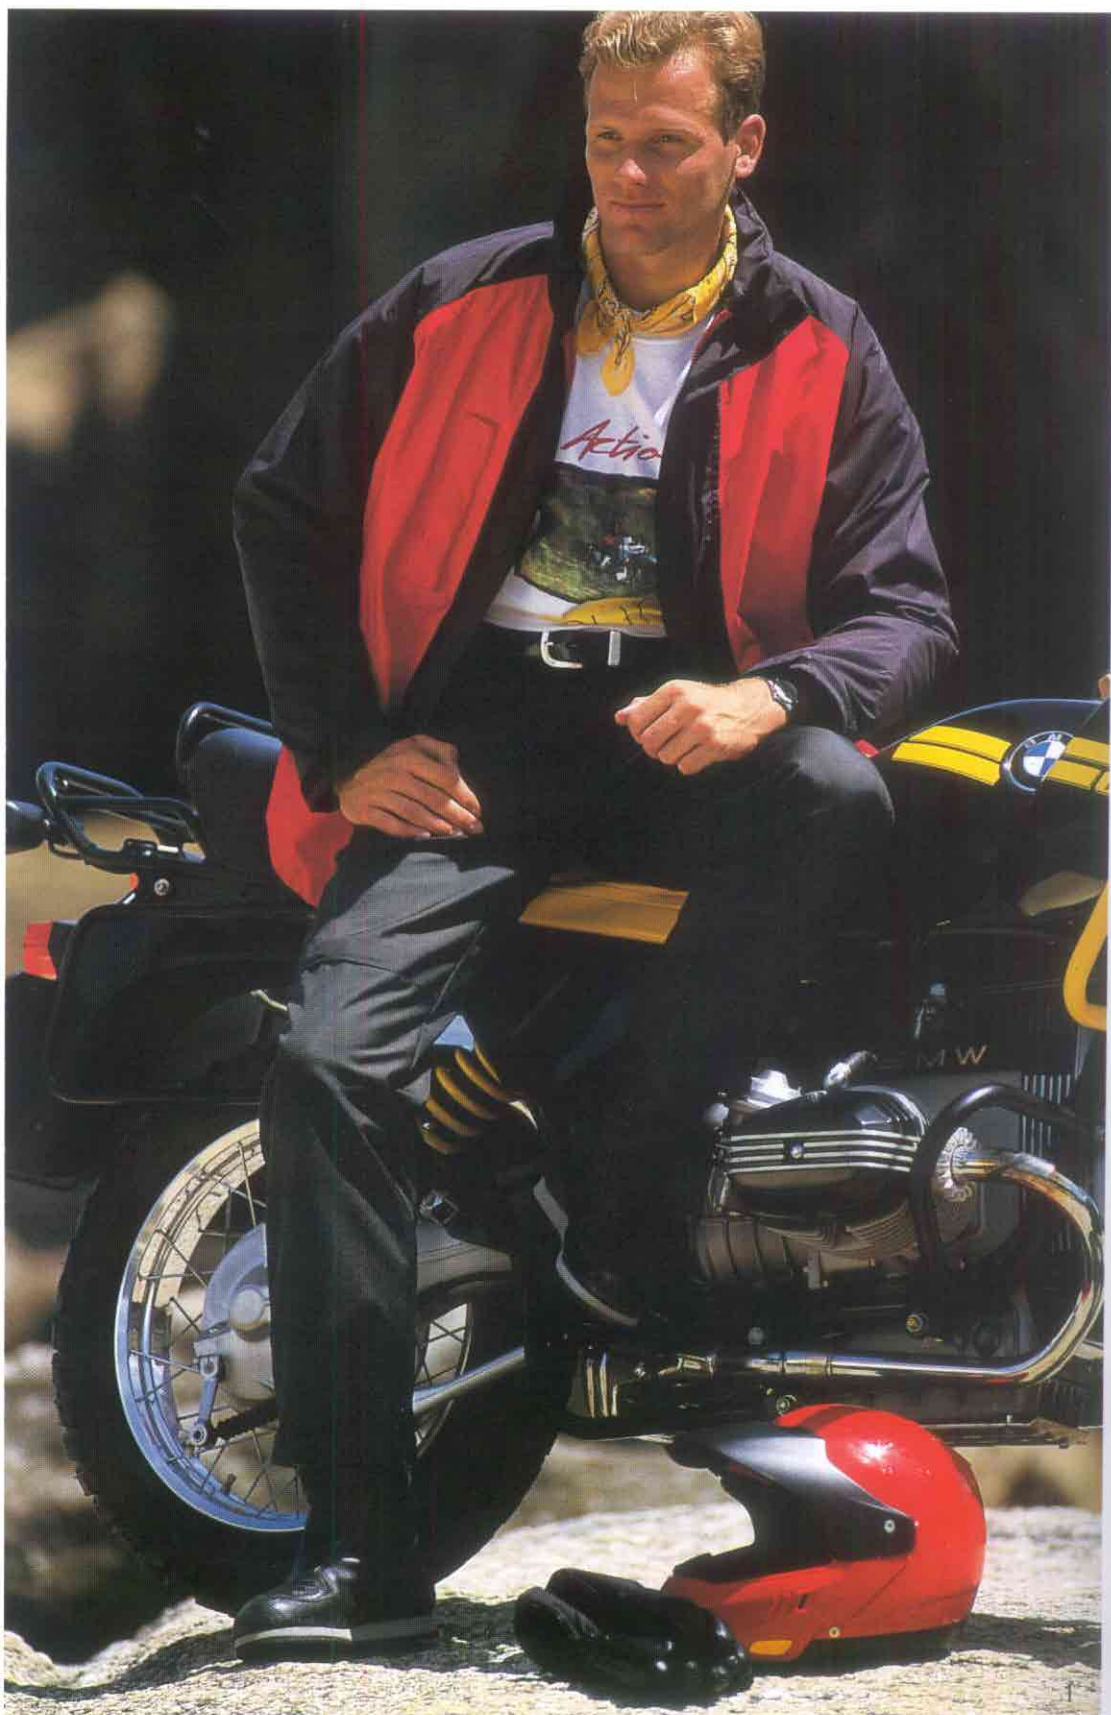

6
Long zippers and the wide pleat down the pant legs make it easy to put on and take off both of BMW's GORE-TEX® suits. The trouser bottoms fit tightly over your boots.

GORE-TEX® RIDER'S WEAR: FEELING GOOD WHEREVER YOU GO.

Sure, as long as you've got BMW GORE-TEX® rider's wear. Feeling good at all times is very important on your motorcycle. All over your body, especially on your hands and feet, where you will get wet first. This is where you will suffer most from cold wind and nasty weather. This is why GORE-TEX® is just about the most popular material among discerning motorcyclists, praised by them the world over.

BMW offers you the best conceivable choice of such sophisticated motorcycle wear. If you are looking for a trendy and functional combination with virtually any style pants, there's the GORE-TEX® rider's jacket. And if you are looking for a jacket that does not identify you right away as a motorcycle enthusiast, this jacket will look great as casual wear, too.

We also have the right kind of motorcycle wear to protect your hands and feet. Just choose what suits you best, keeping warm, comfortable and smart looking wherever you go.

1
Versatility all the way. The BMW GORE-TEX® rider's jacket is an ideal match both for your leather pants and the new Active Line GORE-TEX® pants.

2
Everything under control. BMW's GORE-TEX® summer gloves are not a bit heavy. They are made from high quality leather and active-breathing fabric reinforced by extremely strong kevlar.

3
Standing firmly on the ground, BMW's GORE-TEX® boots combine the pleasant feeling of 100% water-tight breathable quality. The boots come complete with special padding for shifting gears, stable plastic reinforcements around your ankles, practical velcro fasteners with a stretch insert, and slip-proof vibration damping profile soles. Available in black, red and charcoal grey.

4
Extra safety and extra fun. The BMW GORE-TEX® rider's jacket comes with removable SECUFLEX pads around your shoulders and elbows.

5
Forget about the weather. BMW's GORE-TEX® summer gloves (left and middle) made from kevlar and leather are both cool and indestructible. In sub-zero temperatures in winter, BMW's GORE-TEX® winter gloves with polyester filling keep you cozy and warm. The thin-padded sheath fits either below or over your cuffs.

THE BMW ROADSTER LEATHER SUIT. FOR PEOPLE WHO LOVE THE ORIGINALITY.

A casual, sophisticated look in classic black two-piece style – close-fitting but not too tight. Just right to add that final touch of sporting elegance, whether on your motorcycle or in an open two-seater.

It goes without saying that BMW's Roadster suit is made of the very finest materials – leather, 1.2 mm (0.05") thick, first class finish, wonderfully comfortable and extremely hard wearing. Special hard-shell protectors around your shoulders and elbows ensure the right kind of protection on your bike. They can easily be removed whenever you decide to use your jacket casually instead of riding your bike. The pants feature integrated foam protectors around the hips and knees, combining extra safety with casual, discreet looks.

Both the jacket and pants look good by themselves, while on your motorcycle they fit together perfectly with the all-around zipper.

Matching boots and gloves are also available to add the final touch to BMW's unique roadster look.

1
The new BMW R 100 R
"Roadster" complete
with BMW chrome kit
and the BMW Road-
ster leather suit.

2
The integral abdominal belt makes a clear pledge black on black to the motorcycle of your choice.

3
To avoid drafts around your neck, simply turn up the collar.

4
BMW's Roadster leather gloves complete with long sheaths, elastic and closing flaps with stud fasteners. Made of the very best cowhide with natural leather padding.

5
BMW's pants are very comfortable but tight fitting to avoid wind flapping. Foam protectors around your knees and hips ensure extra safety.

6
Ride the new BMW R 100 R "Roadster" in grand style wearing BMW's new Roadster leather suit.

CLASSIC FOREVER, THE NEW CLASSIC LEATHER SUIT.

In the good old days when motorcycling was still associated with dirt and grime, leather clothing just had to be practical. Today, on the other hand, it is also supposed to look good, and it certainly does if you consider the BMW classic leather suit. It is a high-class motorcycle suit with classic style all the way. A combination of timeless elegance and trendy fashion. Casual and wide in its cut, the suit ensures perfect comfort wherever you go, making you look good with or without your motorcycle.

The leather jacket and pants are also attractive by themselves and go together perfectly with other garments to give you optimum versatility all the time. In fact, it would almost be a pity to use the classic suit only for riding, although it is absolutely perfect for that purpose. The 0.05" leather with anilin tanning combines efficient protection with long life. Two layers of leather and padded pockets protect the rider at all particularly exposed points. Extra safety can be provided by additional protectors inserted into the suit. The waist zipper ensures a firm connection of jacket and pants, the tight fitting collar and cuffs reliably keep out the wind. Six practical pockets provide ample space for personal belongings. You can count on all kinds of amenities to keep you feeling good on or next to your motorcycle.

1
The new BMW classic leather suit. Exclusive rider's wear combining first-class finish with the very best material.

2 Forget about the wind. The lambskin collar can be closed tight to keep out drafts. It also comes off for convenient cleaning.

3 Close allies – the jacket and pants can be connected by zipper to avoid even the slightest drafts out on the road.

4 The BMW leather belt is a perfect match for your classic suit.

5 Simply ideal for both of BMW's leather suits, the Roadster leather boots made of water-repellant 0.09" leather and leather lining, with anatomical foot padding, stretch insert around the sheath, inner gearshift reinforcement and ankle padding.

6 Tailor-made in classic style, the jacket and pants of the two-piece leather suit are also available individually.

THE BMW PRO SUIT: SAFETY AT ITS BEST.

With decades of experience in the production of outstanding motorcycles, BMW is also in a position to optimize every garment, every accessory, every item of special equipment in pursuit of perfection. So that each and every item benefits from this experience and the know-how BMW has acquired through comprehensive research and practical testing in rider safety and ergonomics.

One of the latest results of this outstanding product philosophy is the BMW Pro suit, an absolutely first-class rider suit for the dynamic, enthusiastic motorcyclist.

It's a suit which combines the most advanced materials – Kevlar and SECUFLEX – with classic leather, thus providing an up-to-date blend of maximum safety and supreme comfort. Perhaps the suit's most important safety features are the protectors around the shoulders, elbows, lower arms and hips using a material with unique properties specially developed by BMW: SECUFLEX.

While absorbing impacts much better than conventional materials, SECUFLEX nevertheless provides fully unlimited freedom of movement. Elastic, strain-resistant kevlar keeps the protectors in position. A backbone protector is available as an option. Kevlar is also used around the calves, knees, lower arms, shoulders, hips and armpits to form special stretch zones.

The result is a suit which not only offers maximum safety, but also many years of supreme comfort and pleasure.

1
The BMW Pro suit proves how modern design and optimum visibility can be combined intelligently. Bright colors and additional reflector stripes on the sleeves and legs ensure maximum safety even in the dark.

2
SECUFLEX protective padding: Lightweight, strong and flexible for extra safety. A special backbone protector is also available as an option, fitting conveniently into the jacket.

3

6

4

5

5
The protectors are covered on top by extremely tear-proof kevlar.

3
BMW black leather gloves. A perfect match for BMW's current range of rider wear. Made of cowhide, with protective padding and long cuffs.

4
BMW leather boots in black with stretch zones for extra comfort and a long zipper extending all the way down to the sole. Reinforced uppers and slip-proof rubber soles for optimum safety.

6
Side zippers along the trousers and jacket enable you to adjust the suit individually to your requirements, making the Pro suit a perfect fit in all situations.

BMW CITY OVERALLS. ADD EXTRA COLOR TO THE ROAD.

Just jump on your machine and go for a ride in real style. To the nearest scenic spot. To a downtown boulevard for a bit of window-shopping. Or for a picnic in the countryside. Provided you've got the right motorcycle wear, you'll always have a good time. With BMW's new city suit, for example.

Overalls suitable for every occasion. They're attractive, good-looking, extremely comfortable and a pleasure to wear. A suit that turns heads wherever you go.

And how about the right boots to match? BMW's lightweight boots offer all the benefits of conventional motorcycle boots but are sufficiently comfortable even for walking.

With BMW offering all-around qualities in every respect, you will sometimes travel to places you would hardly reach on foot. For example when leaving the city for an adventure tour off to the countryside, you will really appreciate our off-road accessories for their unbeatable qualities.

1
Just right for summer in the city and everywhere else you would like to go: The BMW city overalls – lightweight, sporting motorcycle fashion.

2
As tough as they come: BMW Dakar off-road boots with additional, extra-stable shin protector. Stretch zones, wide opening and practical, rapid fastening for extra comfort.

3
BMW's lightweight boots – casual, practical motorcycle boots with superior comfort for riding and walking. Important features: flexible profile sole, reinforced gearshift pads and velcro fastenings.

5
A smart-looking accessory and a highly functional feature all-in-one: The wide and elastic hip belt also serves as an abdominal protection belt.

4
Pads sewn on to shoulders, elbows and knees add a casual look and ensure extra safety.

6
Designed for adventure: Dakar enduro gloves feature extra-thick padding around the fingers and the back of the hands, plus perforated zones for efficient ventilation.

EVERYTHING THAT COUNTS FROM BMW.

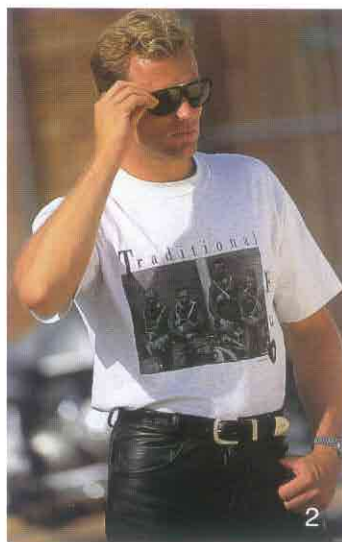

Most riders already know from experience that well-conceived, functional motorcycle wear is absolutely essential. Since BMW's designers and engineers are experienced motorcyclists themselves, they know exactly what counts and can vouch for top quality and function right from the start.

Before a new item of BMW motorcycle wear even enters the market, it is developed with utmost attention to detail and thoroughly tested for practical value. Quality is permanently monitored in production and BMW makes sure that new know-how in safety research as well as rider preferences go directly into the latest models.

All this means that BMW is able to offer you an up-to-date, comprehensive range of equipment giving you exactly what you need. You can also count on our perfection to the last detail, which ultimately is the most important aspect of all.

1
Turn the key and off you go. The BMW key case keeps your ignition key on a long chain while the other keys remain safely inside to prevent noise and the risk of scratches.

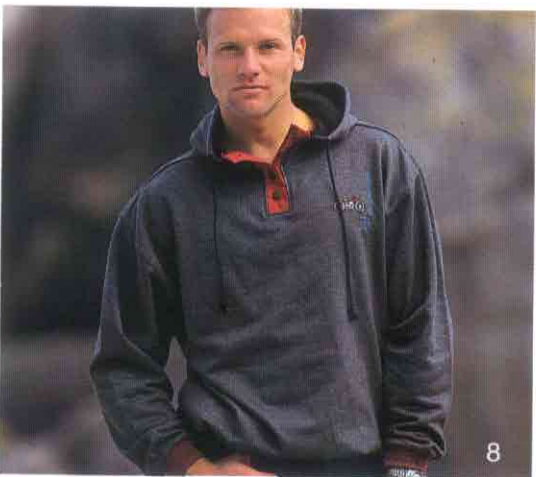

2
The BMW T-shirt provides a good impression of what motorcycling used to be like. At the same time, it is trendy and up-to-date in every respect, made from 100% cotton.

3
You don't really need much to feel free on a motorcycle, but what you have should really be the very best. And that is what you get from BMW.

4
Your System Helmet deserves to be cleaned. Our special cleaner keeps your helmet or visor clean and looking good at all times without damaging the surface in any way. Complete with refill bottle for taking along on your motorcycle tours.

5
Not available in U.S.A.

6
The BMW abdominal belt is just right to keep cold air away from your kidneys. It has stretch inserts, velcro fastening and warm padding round the back.

8
Pleasant and convenient, the BMW hood shirt is just perfect either by itself or beneath a jacket.

7
When things get cold, the BMW wind hood made of either cotton or 100% pure silk is just right.
