December 3, 1968

Dear BMW Dealer:

This is our revised and improved BMW Parts Catalog. You will notice that it no longer contains call-out numbers, but instead gives the part number on the exploded view. The text and explanation is always on the flipside of the exploded view. As revisions are made, we will mail new pages which can be inserted, thereby keeping the catalog up to date. This catalog contains all the most recent changes made on the BMW motorcycle, such as improved shifting, telescopic front fork, new carburetors, etc. Please remove the old catalog from the Blue Binder, retain the cover sheets and pages 7, 8, 9, and 10 from the old catalog and insert them together with the new catalog into the binder.

We are certain that you will find it much easier to order parts with this new catalog.

Prices:

Since the prices remain unchanged, we will not issue a new parts price list. Please continue to use the 1968 parts price list (grey cover).

We are enclosing a two-page supplementary price list which covers the few additional parts listed in the new parts catalog. All prices that cannot be found in the 1968 parts price list are in this supplement.

The discount schedule remains the same and is as follows:

45% on all orders in excess of \$100.00 list,  
except 25% on items preceded by an "M", regardless of  
amount of order.

Orders for less than \$100.00 list are subject to a  
40% discount.

Orders for less than \$5.00 will not receive a discount.  
Minimum amount for an order is \$2.00.

Orders for 10 tires or more are shipped freight prepaid.

If you have any questions regarding parts, please contact us.

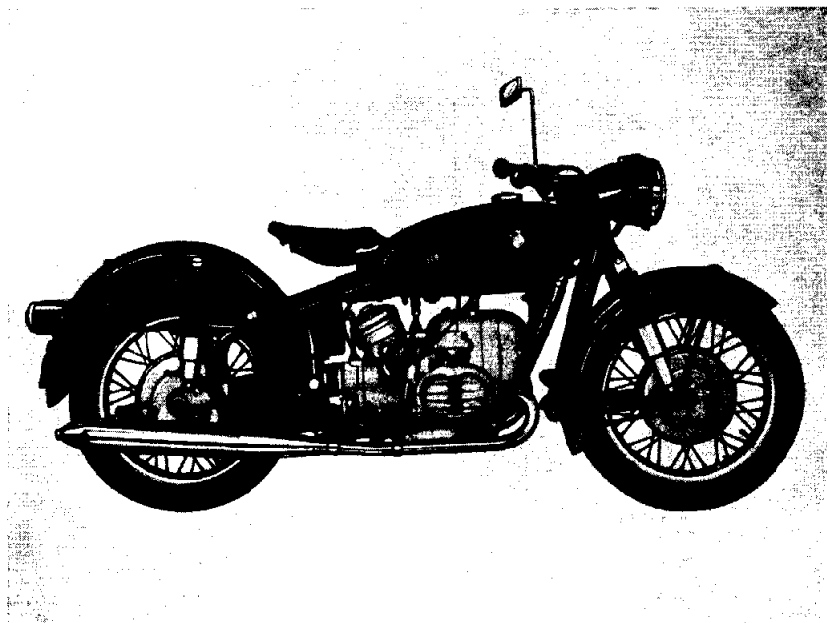

Sincerely yours,  
BUTLER & SMITH, INC.  
Parts Department
